**Łukasz Kołodziejek**  
Senior Solutions Architect  
AWS

With over fifteen years' experience in IT architecture, strategy and consulting and five years at AWS, Łukasz Kołodziejek enables enterprise clients during their cloud transformations by leveraging his skill at designing scalable, resilient and secure cloud solutions. He drives business change and growth, combining his commitment to innovation and excellence, his deep knowledge of cloud technology and architecture best practices and his expertise in aligning business objectives with generative AI and other cutting-edge solutions. With his previous experience in the financial and telecommunications sectors, he also offers valuable cross-industry perspectives.
