Maciej Grala
Cybersecurity Engineer
MakoLab

Maciej Grala is an experienced technical team lead who specialises in cybersecurity, cloud technologies and software architecture. He has led numerous projects, providing strategic technical leadership and ensuring best practices, while delivering secure, scalable solutions that leverage cloud solutions and artificial intelligence.

A graduate of the Łódź University of Technology, Maciej is a certified subject matter expert.

In his free time, he enjoys long walks with his two dogs and savouring Italian food and good coffee.
